Customer Reviews

Cute book, but very disappointed when I discovered it didn't work. Pulled the plastic tab out of the battery and used the book in full sunlight for the light sensors to work and no sounds, my 1 and a 1/2 year old nephew was not amused. Wish I had purchased the book when I found it in a store, tried to get a better price through and ended up buying batteries and spending just as much anyway.

Very durable

Great book and my son loves it. Getting 1 star though because I have boughten two of them already because the batteries die within a few uses! Happened twice already, will not purchase again.

Arrived with dead batteries. Be prepared to replace before using or giving the book.

Cute book to go along with a toy fire engine for my great grandson for Christmas.
