# Super-Nutrition For Dogs N' Cats

## Synopsis

Super Nutrition for Dogs n' Cats offers health advice for dog and cat owners. Read the personal stories of other pet owners, and learn how to use natural remedies to treat your pet's illness. Simple, natural nutrition can be much more beneficial to our pets than dozens of vaccinations.Â

## Customer Reviews

In 15 years of private practice, I have found that the feeding of fresh, wholesome foods and appropriate nutritional supplements, enables my patients to heal better and faster. This book can help guide you to learn how to help your pet become more healthy using the principles and practices of natural nutrition. --Robert J. Silver, D.V.M., M.S. Through the years of observation as a holistic veterinarian, I am of the opinion that the greatest damage done to animals is from poor diet and excessive vaccinations. The advice contained in this book goes far towards remedying these problems. --Stephen Tobin, D.M.V. Holistic Vet

Nina Anderson is an International Sports Science Association certified Specialist in Performance Nutrition and a professional writer. She has been an active researcher in the alternative health field for over twenty years. Ms. Anderson has written over a dozen books on the subject of alternative health. Her most popular titles include Low Carb and Beyond and The Secrets of Staying Young.Â Howard Peiper, ND, is a doctor of naturopathic medicine. While beginning his career in optometry, he was immediately drawn to the field of alternative health. In 1972, he received his degree in

Naturopathy. After a decade in private practice, Dr. Peiper moved on to become a successful consultant, speaker, and writer. Over the years, his cutting-edge articles have appeared in numerous medical journals and magazines. He also serves on the medical advisory board for several nutritional companies. Dr. Peiper has written several bestselling titles including *The ADD & ADHD Diet!* and *New Hope for Serious Diseases*. He is a frequent guest speaker on radio and television and has hosted his own shows including the award-winning TV show, *Partners in Healing*. Currently, Dr. Peiper lives in Southern California and continues to travel and lecture throughout the world.

*Super Nutrition for Dogs n' Cats* Told mostly through quoting what are apparently true anecdotes from pet owners, the book is a wealth of information on natural nutritional products currently available in the market place. This book saved me hours of searching online for help for our cat family. And the price is unbelievable!

I have two border collies, ages 13 and 9yrs. The 9 yr old began having seizures after her rabies vaccine when she was just 5 yrs old. I found a holistic and homeopathic vet and started making her food from scratch. Treated her with homeopathic remedy, give her vetri science supplements and they both eat what my husband and I do. They are both in great shape, even my regular vet says she cannot believe what great shape the 13 yr old is in. My dog has been seizure free for 4 yrs now and I read everything I can on making their food and treats as well as no more vaccines. Have had titers done and their antibodies show they are fine and do not need the vaccines so I do not give them. People do not get vaccines every 3 years so why should animals????? CPG/Vermont&NC

I have a dog and several cats and was always plagued by fleas. I didn't want to use chemical treatments and a friend told me about this book. The natural approach worked and so far this year we all are flea-free. It also gave me lots of good information on things in my house and yard that can make my animals sick. I will never again let my dog, chomp on the Xmas tree. Anyone who owns a dog or cat will need this book. The information given can keep our animals healthy so we can forget about vet bills for non-emergency illnesses since they won't get sick in the first place. I'm glad the authors wrote a book about illness prevention to complement all those books that tell us what to do after their pet gets sick.

A friend of mine recommended this book to me because I have a year and a half old cocker spaniel

named Lily that suffered from emotional distress when ever I left her alone. She would whine and cry until I would go back into the house and take her with me. She couldn't be left alone for 5 minutes. Now that I have this book and used it's natural remedies Lily is fine. I purchased a second copy for my sister because her dog suffered from seizures. She was tired of treating him with pills that altered his behavior and made his hair fall out while he continued to suffer through the seizures. Thanks to this book he is healthy and no longer suffers from seizures. He is like a new dog. I recommend this book to everyone that truly loves their animals.
