Collision Course: The Classic Story Of The Collision Of The Andrea Doria And The Stockholm

Synopsis

The definitive New York Times best-selling account: “One of the most intriguing and thought-provoking books about shipwreck since *A Night to Remember*” (The Detroit News). One of the largest, fastest, and most beautiful ships in the world, the Andrea Doria was on her way to New York from her home port in Genoa. Departing from the United States was the much smaller Stockholm. On the foggy night of July 25, 1956, fifty-three miles southeast of Nantucket in the North Atlantic, the Stockholm sliced through the Doria’s steel hull. Within minutes, water was pouring into the Italian liner. Eleven hours later, she capsized and sank into the ocean. In this “electrifying book,” Associated Press journalist Alvin Moscow, who covered the court hearings that sought to explain the causes of the tragedy and interviewed all the principals, re-creates with compelling accuracy the actions of the ships’ officers and crews, and the terrifying experiences of the Doria’s passengers as they struggled to evacuate a craft listing so severely that only half of its lifeboats could be launched (Newsweek). Recounting the heroic, rapid response of other ships—which averted a catastrophe of the same scale as that of the Titanic—and the official inquest, Moscow delivers a fact-filled, fascinating drama of this infamous maritime disaster, and explains how a supposedly unsinkable ship ended up at the bottom of the sea. In the New York Times Book Review, Walter Lord, author of *A Night to Remember*, said of *Collision Course*: “More than a magnificent analysis of the accident and sinking; it is a warmly compassionate document, full of understanding for the people on each side.”

Customer Reviews

Absolutely riveting Couldn't put it down

Excellent. Have recommended to others.

Excellent reading for history buffs.

I remember t.v. coverage, could hardly stop watching, reading the book brought back some memories. A 77 year old from from N.Mn. The book seemed to bring memories to life.

This was an excellent book. Lots of details, never boring.

Very good chronological retelling of the collision between the Andrea Doria and the Stockholm using witness accounts and court records. Modern dives on the wreck aren't as useful to the story but seem like filler.

Well written and seemingly well researched as well. I do wish there was a finding of fault in the narrative based on the preponderance of evidence. It did get a little bogged down with some of the characters.

I was aware of this terrible accident when it happened . However this book filled in many of the gaps in my recollection . It certainly held my interest from beginning to end.
