Excellent value, and can keep young children entertained for a few minutes. Now these books are small--but that's kind of the point of these book, I think. They're portable, easy to throw in a briefcase or purse or back of the car, and handy to give to children at the doctor's office waiting room, or in an airport, or on a car trip, or at a restaurant waiting for food, or really, just anywhere

where you want to have a short educational (or semi-educational) activity. And I gotta admit, I like that this is an "un-plugged" option. Not on a phone or tablet or screen--just a good old-fashioned book with simple activities, vivid illustrations, and things to *do*--that is, an active, tactile experience--even if the activities are quite simple (like peeling stickers). We don't leave home without a few of these. (Just be prepared, if you haven't ordered these before, for a small booklet, not a *book* book.)

I only received 1 of the 3 that I ordered AND payed for. Hope the other 2 find their way to me.

Very small--maybe 6" with about 18 stickers to put on the little background. Reusable only a couple times with a 3 yr old

This little book was so fun and the price was amazing

grand kids love them

Great!

I ordered this book knowing I wasn't going to get anything spectacular because it was cheap, but I figured it would actually have activities in it, because of the title. It's nothing more than 21 animated looking stickers with a small land scene on the inside front and back covers. They call it a panoramic scene to place the stickers on. The scene measures less than 6 inches high and 8 inches long. This book is worth no more than 25 cents.

This is a mini sticker book but it's just the right size for kids (and for the price). Highly recommend for kids with an interest in dinosaurs.
