You're Weird is a lot of fun! Unlike your typical journal, *You're Weird* has a lot of fun drawings, questions, and activities that help inspire and prod you to keep journaling. . Every page is full of fun drawings and borders that are ripe for coloring when cutting loose after an hour long strategy meeting. I got a copy at our local bookstore and plan on ordering another copy just for coloring. I'm sure even seasoned journal keepers will enjoy this book. What to know. Mix of bordered journal pages and activity pages that encourage you to write. The art style will appeal to most and is perfect for kids and adults. Pages are ready for coloring. The sample pages are really a good example of what you get with this book.

There are lots of DIY journals around nowadays, some of them a lot more interesting to fill out than others. I would definitely put this on the MORE fun-to-do list, especially if you enjoy writing about yourself. That being said, I felt a little stupid filling this out as a full-grown 30-something adult (since I bought it online I didn't really know what was in it until I had bought it.) This definitely felt like the type of journal I would have loved when I was 17, which is not to say it's bad, because it's not, it's a lot of fun, but I'm pretty sure I'm not the target demographic. Oh, well, tant pis. I think this will make an adorable Christmas present for my niece.

This is a very clever journal. Lots of questions to draw you out on your past, present and future. Lots of drawings and squiggles. I will use different color pens depending on my mood. Great book!

Love love love this Journal! If you like the "Wreck this journal " series you will love this one! I am gonna buy more for my friends and family!

I love this journal - it is quirky and inspiring - the little exercises make you think and bring you back in time. I am going to fill this out for my grand-daughters to read about me one day - I hope it will inspire them to always be a bit weird and proud of it!!

This is a very unique journal. The book is filled with pages for the reader to think about themselves. There are writing prompts, pages to color, and many creative activities. The author wants the reader to be creative and take chances with their thinking. The author wants the reader to have fun! Personally I think this book would best be utilized by an older child or an adult. There are references to activities the person may have done and a younger child may not have had many of those experiences yet. There are many hours for the reader to enjoy themselves and think about their life and wishes for their life in this journal.

I salute the author he is good
