This cook book includes recipes for sit down family meals, light soups that could be used as quick lunches or appetizers, and smoothies for on-the-go or a sweet treat. ALL of these could be made in family sized portions and frozen in individual portions to suit the singleton's need. I have made parmesan crusted zucchini, chickpea soup, and a couple creamy delight smoothies. For the smoothie I used cheap, easy, frozen ingredients, but I got my veggies and spices from a locally owned Pacific grocery store. As much as I liked the recipes, I feel like there are options that can please families with picky eaters as well. It's a fun way to SUPER SHRED in time for bikini season.

I am so happy I purchased Super Shred Diet recipes. I prepare all of my meals at home for a family of 4. I often run out of healthy ideas that are easy to prepare and healthy at the same time. With summer just around the bend, I also want to eat meals that will trim my waistline and make me a healthier individual overall. As soon as I began reading Super Shred Diet Recipes, I noticed how easy it was to follow the directions. The ingredients aren't complicated and I could put these meals together without spending an hour looking for some rare item in the grocery store. The meals are also easy and fast to prepare. I particularly enjoyed creating the smoothies listed in this ebook. I do not have the imagination or skill to blend things together and have it taste awesome. This ebook solved my problem and I was able to create healthy smoothies that were pleasant to the taste. Even my toddler loved them. I am so excited to follow this diet for the full four recommended weeks. I already feel the progress by starting the first goal set forward in this book and have lost 2 pounds already! This book is so practical because it provides all the meal plans, and the guide to how to lose my extra pounds in a healthy and successful manner. It was worth every penny I spent on it.

I bought this book not just to shred extra pounds, but also bring healthy and tasty food for my family. Everyday, I've been struggling on what to cook for them. I don't have time to search for different recipes over the internet. Super Shred Diet Recipes made my life easier. Now I can bring delicious and healthy food to the table. My husband likes it and always get compliments from him. My daughter likes the smoothies and always ask me to make it every snack time. I don't mind making it everyday because it is good for her and very easy to prepare. This book offers mouth watering recipes and guess what, it doesn't cost a lot to make it. Highly recommendable to all the moms like me who cook food everyday for their family and are always conscious in their health.

The reason why I bought Super Shred Diet Recipes book is because, I love to cook and I love to

learn different delicious recipes that are easy to follow. I love to cook but I am also afraid that I may gain weight more than I would like to lose some. This book is worth every penny though because I can make mouthwatering recipes, without having to worry about my weight. If you're like me who loves to enjoy delicious food while on a diet, I suggest you buy this book. With SHRED diet, I actually saw the difference almost immediately. I am enjoying my yummy food and I am losing weight at the same time. How amazing is that? My friends could not even believe that I am on a diet because they always see yummy food on our dinning table. It's definitely surprising that I can have great main course, delicious soups and stews, low calorie snacks, and fruit smoothies and protein shakes. Goodbye boring diet!

I am a big fan of smoothies because they are healthy. I am also trying to get back into shape for swimsuit weather, so I bought this book, in hopes of losing weight without sacrificing things that I love. I have tried these Super Shred Diet Recipes and I have to say, they are amazing! The foods don't even taste like you're on a diet and I have already lost a few pounds. I highly recommend this book to others looking to drop pounds without giving up yummy tasting foods.

Sharon hits a home run with this book. She includes everything you need to get going with this book. She starts by hitting main courses that can be done in under 30 minutes. That is especially important for me since I have kids and understand the need to get food out as fast as I can and also as healthy as possible. This book gives exactly that very blend needed. The thing I like best is that the recipes cover a huge number of different foods that are tasty and also help if you are looking to lose some weight. She also has a section on soups and stews that also only take 30 minutes or less! Finally, with recipes covering snacks and fruit smoothies along with protein shakes, you have everything in order to get your diet in order right away. At the end she goes through a day by day plan to ensure that you get off to the right start. It is almost too easy to follow this diet. That's really what it's all about. You have to find a diet like this one where you don't feel you are on a diet at all!

If your current diet doesn't give you the results you want, then the super shred diet is worth trying. It's not complicated at all which is good for beginners and you can start with it right away.
