Victoria: At Home With White: Celebrating The Intimate Home

Synopsis

White is the color of angels and brides, moonlight and lily of the valley. It is capable of endless subtleties; fragile or strong, it can be transparent as ice, opaque as marble, in love with light as a diamond. Now the secrets of using this most challenging color are explored and shared by the editors of Victoria magazine in *At Home with White*. More than 150 beautiful photographs feature the many decorating styles created or enhanced by the color white -- richly traditional, clean-lined contemporary, rustic country, breezy tropical, lushly romantic. Victoria takes us on an informative tour of the exquisite fabrics that bring these styles to life, from hardworking cottons to sophisticated linens to precious laces. We are invited into the wonderful, magical world of summer, a season that seems as if it were created expressly for white, and into the private places in our homes made intimate and fresh with white bedroom, bathroom, dressing room. The white gardens, porches, and terraces that serve as refuges in our lives are explored as is the long-standing friendship between white and blue. Throughout the book are profiles of homeowners who have spun some magic of their own with this most intriguing color.

A Color of Many Moods It may be the most ethereal of hues, but it is neither reticent nor shy. White is positive, assertive, and highly visible. Over the centuries, its power has been understood and exploited. Ever sage, Queen Elizabeth I, when visiting her courtiers, stepped from boat or coach clothed in radiant, silver-threaded white so she would stand apart from her attendants and the

welcoming throng. A Palette of Seashells A house near the sea carries its own special obligations. The interior must reflect the light from the expansive sky, the fleeting clouds that forecast the day's occupations, and the distant roar of the ocean that is a constant reminder of the shore with its glistening, tufted grasses, undulating sand, and thousands of tinted seashells scattered there. The open living room of Susan Becher's house on Long Island is made to seem more open still by white moldings and floors, and by the subtle shade of vanilla paint on the walls. Easy-going blue and white striped slipcovers, a dash of white lace on chair backs and tables, and a hardy sisal rug make the room a year-round ode to summer. Copyright 1996 The Hearst Corporation

Beautiful photos and informative text on every page. A lot of wonderful ideas for creating an inviting classic home. Not too frilly or fussy...more a Southern charm feeling.

I couldn't believe how fast this order was filled!!! The book arrived the next day!!! It was as good as brand new!!! I'll be redecorating my whole house in white for the summer. Excellent book, excellent customer service, THANK YOU!

This little book is full of pretty photographs and ideas for using white as a color. As with all Victoria Magazine products, beauty and atmosphere are presented as the way to inspire the reader. It is very enjoyable for one to page through looking at the photographs.

This book was in great shape, good price and fast service. I would certainly use this seller again. I appreciate the books that I can hold in my hand. I have seen people with Kindles with cookbooks and diet books, they have lots of trouble going back and finding things. I am a READER of Books and that's why I appreciate sellers that sell actual BOOKS in good shape. Thank you

I like this book. The pages are filled with romantic, white decor. If you are a fan of flowers, lace and white dishes then this is a good book for you. It is an older book and you can tell that but it has classic ideas in it that can be used today.

This book has many of the style aspects I was looking for. I will use it time and time again as a go to reference for my decorating and repurposing needs. Many good project ideas inside.

Enjoying the book!!

Just ok. Makes a good coffee table book on the cover, but the content wasn't what I was hoping for
