PRENTICE HALL MILLER LEVINE BIOLOGY GUIDED READING AND STUDY WORKBOOK SECOND EDITION 2004

Synopsis

The most respected and accomplished authorship team in high school biology, Ken Miller and Joe Levine are real scientists and educators who have dedicated their lives to scientific literacy. Their experience, knowledge, and insight guided them in creating this breakaway biology program -- one that continues to set the standard for clear, accessible writing. Brand-new content includes the latest scholarship on high-interest topics like stem cells, genetically modified foods, and antibiotics in animals.

Customer Reviews

I ordered this review book as a study guide for my grandson who has dyslexia. He has a hard time reading an entire chapter of a textbook. By filling in the study guide, he is able to concentrate on the key facts. The book was in good condition as advertised.

thumbs up recalled a lot of info

It is not the text, but it will give your child all the workpages he needs to stay on top of his homework.

goes along with the book this only replaces the chapter reviews and new words. Great for a self study curriculum.
