Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

I am planning a trip to Toronto with my chorus next summer. I was looking for a map with great detail to help us plot hotels, restaurants and such to provide to our members. This map gave me basic information I need. Would have liked more, though. Not sure I'll find it short of getting it from a Toronto tourism office.

If you took this sight seeing with you, the map would soon be unusable. Paper too thin. Do not recommend.
