Man Repeller: Seeking Love. Finding Overalls.

Synopsis

Silk parachute pants. A gold lamÃƒÂ© jumpsuit. Ankle boots with fringe. Were these fashion-forward items sending men running in the opposite direction? Maybe, but Leandra Medine never cared. Slipping into drop-crotch shorts and a boxed sequin blazer in the dressing room of Topshop in downtown Manhattan, a brokenhearted Leandra had an epiphany. Looking in the mirror, she suddenly realized she didn't have a boyfriend because of the way she dressed. And the more she thought about it, the more she realized that such outfits said a lot about her life-romantic and otherwise. Now, in her first book, the acclaimed blogger and fashion darling recounts her most significant memories through the lens of her sartorial choices. With her signature sass, blunt honesty, and some personal photos, Leandra shares details of the night she lost her virginity right down to the pair of white tube socks she forgot to take off, as well as when and why she realized her grandma's vintage HermÃƒÂ©'s ostrich skin clutch could hold much more than just keys and a cell phone. Through it all, she proves you don't need to compromise even your most repellent qualities to find your way into that big white dress (and an organza moto jacket). See? You can have your yeti and wear it, too. Showcasing the singular voice that has won Leandra millions of fans, this book is a collection of awkwardly funny experiences, a sweet love story, and above all, a reminder to celebrate and embrace a world made for women, by women.

Customer Reviews

I love this book. I love her wittiness and and humor. I love the clever and fresh approach she has on

fashion. I wanted to become a fashion blogger at some point but played with the idea but, She really made me seriously consider the notion. This is a classic for sure. I also received it super fast. Thanks

Brilliant book, love Leandra. You'll read this then follow her and social media and be entertained daily and wowed by her fashion!

This book is pretty boring. I thought it would be more comical because Leandra comes off as very witty on camera.

I love her as a blogger so i was very excited to read the book. I was disappointed with the ending but maybe her next will be better.

I enjoyed this book a lot more than I thought I would. It was less a "how to girl boss" type book and more of just an interesting/entertaining collection of stories. It's well done and I appreciate her sense of humor and writing style.

The book is essentially a series of stories that all contribute to the idea of "Man Repelling" and are organized in a chronological order that makes sense as a whole but can be read piece-by-piece as well.

It was funny and interesting, not the most compelling book I've ever read but quick and fun. Fashion lovers and fans of her blog will like it but I didn't loooove it.

Loved the book. I read it during my first breakup... at 26! It made me hopeful that my aspirations are worth more then a guy. Leandra is amazing! Fashion has been my life since I was a kid, the weight, the crazy outfits, the "repelling" of men with my out look of life.
