Great selection of contemporary songs. I have a teen, soprano/belter music theater daughter. Many of her "gotta learn them" songs are in this compilation. Voice teacher thought highly of the book, too.

I gave it four out of five for the reason that the songbook is so big that the book is somewhat falling apart, in the middle. I would recommend the book, only if you bind it together. In all together this book is a great resource and I highly recommend it for their are great songs like The Beauty Is, Here I Am, Without You, and other songs that aren't overdone at audition, except Popular, that song is always overdone. I love using it as a resource, and I but you would too:)

Great book! So fun to have these new songs. I'm a voice teacher and always need new musical theater music. I wish there was an accompaniment CD as well. I already had about half the songs in it in other collections, but it is nice to have the gems from the new musicals without having to purchase so many different books. Keeper.

Love, love, love this compilation! Has been really useful for finding audition materials.

I'm enjoying playing through the book very much

Needed this for voice lessons, has lots of great songs! Using a lot of them for auditions!

I can't believe how many of these songs I have sung and performed in the last six months since purchasing this book. Fabulous collection.
