If you like hard Sudoku, but not at the most difficult level that requires a week to solve, these are for you. Most have double channels, hidden pairs and triplets, and take from 20 minutes to 45 minutes to solve.

I have purchased numerous Sudoku books for my husband. Some of them he goes through in a few days, but he really likes this one because it is a challenge. He told me I could buy a dozen copies of this book for him and he would be fine with that. So far I've only purchased two. I guess this book really is irresistible. -- Just an update, I have now purchased a total of 6 copies of this book.

The puzzles are challenging, but not impossible. The structure of the book, however, makes all the puzzles on the left side tricky because of the binding. The puzzles on that side of the book should always have a wider right side margin. Also, the paper is thin. My biggest complaint has to do with previewing - an experienced sudoku puzzler knows by looking at a puzzle whether it will be a challenge, or not. did not let me get inside to preview the puzzles, therefore, I was buying blind - the main reason I rarely buy a Sudoku book on line.

These puzzles are hard. The ones at the beginning are hard and I have trouble with them. I am not great at sudoku but had completed 2 'Sudoko for Dummies' books all the way through and thought I was ready for the challenge. But I am not.

This is not my first Sudoku book from Will Shortz and that's because these are the best. Puzzles are very challenging. I've tried other Sudoku books and no other is as good. The Book came fast. It's not cheap looking and it is made well. Worth the reasonable price. It is a very good Sudoku book for anyone that enjoys Sudoku. I plan on getting another but I have to "try" and complete these first.

I bought this book for my husband who says he is tired of working the easy - intermediate puzzles. I hit the jackpot with this one.

But I wish the descriptions told me exactly HOW hard the puzzles are, which level. I was looking for the Mind Bending, which are harder than these.

This book and one other Sudoku book came as promised, on time and was well packed in addition. I leave the books in several places around the house and find that the challenge of completing them is most satisfying in keeping my wits just a bit sharper. Thanks.
