I started playing the uke about 3 months ago and being a huge Jack Johnson fan decided this was a must. It's a great book easy to follow and has a good selection of songs. Wish there were more like this for some of the more contemporary artists.

Ok so first off awesome to have the lyrics and chords. But I was hoping for actual tabs with melodies to learn from these songs anyone can strum along to chords the challenge is doing the melodies. So yeah slightly disappointed.

Jack Johnson is my favorite acoustic folk guitarist and this book will help me to play his songs on the ukulele. Well written and set up for the style of music that I perform myself in public. Lyrics with chords. Perfect.

If your a fan of Jack Johnson, this is the book you'll want. This is a collection of 41 of his songs, The

pages are easy to read and play to. The print is larger in size and the chords are easy to read. One should take note that this book does not have strum patterns listed. If you enjoy any of the songs listed in the book you will have to research You Tube, your favorite ukulele site, or other locations to obtain them. If this book had some strum patterns listed I would have given it five stars. The book itself is bound well, has an above average glossy cover, and should hold up for years of playing.

My son loves Jack Johnson and was super excited to receive this book. However, he did indicate that a CD of the songs would have helped him hear what his ukulele should sound like when he plays the songs.

Just as advertised and shipped fast.

for the wife

really great tabs
