M.D. Whalen was always the kid who sat in the back of the class scribbling stories and cartoons. Later he sat in front of the class scribbling stories, when he should have been teaching! Now he writes full time in the back of his house, and has published many books under other names. He also enjoys cycling, world travel, and making rude noises in different languages.

I love all the numbers and math in the first sections of the book, nothing too heavy handed or boring, but I love a book that shows kids how useful, funny, and fun numbers can be. A lot of books aimed at kids are no fun for parents or teachers, but I found this one absolutely fascinating. Who knew the world's first joke was a fart joke? Love the illustrations too.

Hilarious not just fart jokes but actually informational. Can't wait to read the rest my son loved it to a laugh a minute and great illustrations

I love this book! Will anyone please get it? You want me to tell you about it? sorry no spoilers you will have to read the book.
