Customer Reviews

This book offers great advice to reach 10,000 likes in an efficient manner. The advice goes far beyond just using ads to get more fans. The problem with ads is that not everyone can afford paying for their fans so you must be able to come up with a different solution. And that's where this book really shines. It'll give you some practical advice for gaining more fans over time, and it'll tell you the most common mistakes people make when trying to increase their reach. We all know how powerful Facebook can be when it comes to spreading the word about business, and this book will teach you the basics you need to know!

As a person who uses Facebook both personally & professionally, I found this book about FB marketing to be spot on. It gives the positives and negatives of using FB for marketing and then gives many helpful tips on how to increase your Facebook fan base. It also gives tips on what to do if you are temporarily banned from FB if they think you are a spammer. I found it quite helpful and informative.

Facebook is the most popular social media platform today, with more than a billion active users monthly. Facebook Marketing provides useful marketing strategies to capture a large audience in a short period of time. This book provides useful tips to get people to like your Facebook page, and is a practical guide to promote yourself and your business on Facebook. A must read for those who are doing Facebook marketing.

I bought this book to learn the pros and cons of Facebook marketing for my product online. I learned a lot of good tips for creating an account on this social media platform to reach the intended target market and the tips to avoid being flagged by Facebook. This is a good tool for starters!

Wow, I really gained some great insights into Facebook marketing through reading this book. Even though I thought I knew it all about Facebook, I was surprised to find a few nuggets of info here I was unaware of. I recommend this book for anyone wanting to gain an edge in marketing.

I highly recommend this book. I read it and thought it was a great help. I can't wait to read more books from this author. I give this book 10/10 and a 5 star review. I hope everyone who buys this book enjoys it as much as I did. Thank you for the great read

The formatting is a little wonky, and some of the info is a little out of date, but the basics and tips are accurate. Not sure I'd agree with "10,000 likes" as accurate, but whatever.
