Good quality book

Nice book

The book looks good, many pictures and explanations, with dictionary summary, which I love, no need to search for new words highlighted earlier.

As I put in my other review. The "En Espanol" series is a total was of money. Unless you are buying this for a class that mandates you own it, stay away. Get Rosetta stone or something else this book went into the trash.

The very book used in the schools around here. Very good. Great for learning Spanish. And I have a native speaker to help with pronunciation.

I worked at a school that used this book, horrible, set up, lame video program, weak. There are much better textbooks for Spanish. Do not recommend! Hopefully it is out of print!

Good learning material for my beginning Spanish lessons. Clarity of lessons appear easy to understand and I am looking forward to my Spanish lessons.

I teach Spanish and the reason I hate this book is because it introduces concepts and then gives little or no practice. The order in which things are introduced is confusing at times. There is way too much eye candy and not enough attention to working out the kinks. Other superior products are available at a much more reasonable price.
