# The View At The Zoo

## **Synopsis**

A new format for this humorous twist on a visit to the zoo. As morning dawns, the zookeeper makes his rounds, exhorting the animals to wake up, comb their hair, and stand up straight. Soon their human visitors arrive, and the observations begin to flow: My, what silly things they do, all these creatures at the zoo. Walking on all kinds of feet, dancing to an inner beat. Babies riding on their backs, on their bellies, snug in sacks. Hear the silly sounds they speak, as they howl and squawk and shriek! But just who is talking about whom? With a clever twist of text and bright and festive illustrations, this picture book will have children begging for a trip to the zoo. Ages 4 to 8.

Kathleen Long Bostrom is a published children's author in both the Christian and trade markets. She has a Master's in Christian Education and a Doctorate of Ministry in Preaching, and has worked in children's ministry for many years. Kathy and her husband, Greg, have three grown children and live in Illinois. Guy Francis began making his living as an artist in grade school when his friends would pay him twenty-five cents to draw cartoon characters for them. He still earns quarters (though more than one at a time) as an illustrator of books and games for children. Guy and his wife, Lorien, and their four children share a habitat in Utah.

My toddler loves animals.. So this book was a big hit! If you have ever taken your little one to the zoo or intend to, this is a perfect book to read afterwards! The illustrations are so bright and fun, the

rhythm of the story flows so nicely that my toddler is able to read along and say the rhyming words, and it is just a cute book that introduces some really cool animals. It's Short enough to keep the attention of young ones but long enough to tell a good story and teach along the way. Highly recommend! We read it every night before bed.

The story is pretty simple, but the illustrations add a lot to the book. The story is about what the ANIMALS see at the zoo, but that is not necessarily apparent in the reading alone. When you look at the images, eventually you get that the people and the animals are essentially the same so the text represents both the humans and the animals... and at the end of the book it is more apparent that its the animal's perspective. Good book to read before going to the zoo.

Love this book and all the great pictures. Great big pictures and a cute little story about the zookeeper making the rounds feeding all the animals. Great seller too! I plan to check out her other books that she sells since this one is not so easy to find.

Great book! Bought this for my kid's second birthday, which will be spent at the zoo. We thought this would help get her used to the animals she will see and might help her name them while at the zoo. The colors are really vibrant in this book too. I recommend it.

Simple and cute book! Has great illustrations! Mentions a wide variety of zoo animals. Great book for parents and educators of young children.

This is such a wonderfully illustrated book! The storyline is cute and simply wonderful for kids to look through. Its perfect for my two year old niece who is learning how to identify animals and colors. This book also is perfect for older kids because there are so many things to look at and discover on each page. I do wish they sold the hardcover edition of this book on , but as soon as they do I'm buying another copy.

Super cute book. We love it.

cute pictures of animals for my 2 year old
