Great transaction, book as described, fast shipping, highly recommended

I’m not very knowledgable on this topic and have not sat down and thoroughly read this book, but I am disappointed that it offers so little information on several popular knife brands of interest to me, including European brands Puma, Mora and Marttiini. The index shows one page on Frost, two pages on Camillus and two pages on John Russell Green River Works. These last two are of significant historical importance, and Frost is curious because it’s so far-flung globally. There are just a few paragraphs on Shapleigh of the US and also very little on Sheffield of England. Not coincidentally, the authors’ position is that these knives are not particularly collectable. There is far, far more information on Case, which the authors also hold in higher collectable esteem. I should

note that the historical sketch on Camillus has information I haven't seen elsewhere; pretty cool, but there are no footnotes.Knife brands of interest to me do show up incidentally in generic discussions, but that seems backwards.On the plus side, the bibliography looks to be a good one. I want to know why Frost is found in Scandanavia, Asia and Germany, as well as the US. That discussion isn't in this book, but I'll bet it is in some of the listed sources.Because this book is of very little personal interest to me, at least at this time, I can't recommend it. A Case collector might like it a lot, however, and it is very well written.

Love it. Very informative book.

Excellent book and, as usual, excellent service fro .Thanks

Great Book

Great book everything I was looking for

Somewhat less than I expected, but I still have a lot to learn about the book. So, it may end up being rated better after I use it awhile.

Was up to date & easy to read!!! Very easy to find the knives I was looking for! Good Deal!!!
