A Practical Manual Of Laparoscopy: A Clinical Cookbook

Synopsis

Few fields in medicine have experienced as explosive an increase in knowledge and techniques as endoscopy and in particular, gynecologic laparoscopy. Just a few short years ago the formal teaching of laparoscopy in residency programs was virtually non-existent. Even today, the instruction in this modality of surgery can be inconsistent. Many gynecologists finish training with only a minimal exposure to the multiple procedures that are rapidly becoming the standards of care. Designed in a special "cookbook" format for easy reading and optimum comprehension, *A Practical Manual of Laparoscopy: A Clinical Cookbook* details basic concepts as well as advanced procedures. The book covers the entire field from pelvic anatomy to advanced bowel and cancer surgery. Expert graphic artistry combined with computer-enhanced photographs present technically detailed drawings of unmatched quality. These drawings are clear and easily followed and they supply the optimal information regarding the various procedures they describe. With its state-of-the-art graphics and easy-to-use format, *A Practical Manual of Laparoscopy: A Clinical Cookbook* is a complete and comprehensive resource for new laparoscopists and a valuable reference for seasoned professionals.

Book Information

Hardcover: 368 pages

Publisher: CRC Press; 1 edition (May 22, 2002)

Language: English

ISBN-10: 1842140779

ISBN-13: 978-1842140772

Product Dimensions: 10.4 x 7.5 x 1 inches

Shipping Weight: 2.4 pounds

Customer Reviews

"I like this book-not pretentious, straightforward; light in weight; heavy paper; drawings light in tone but very clear; a book for the next few seasons and for all gynecologic surgeons. It is a book to enjoy for its directness and information; it labels itself as a clinical cookbook-and a very tasty one at

that. Without reservation, this book would be of value to all gynecologic surgeons. will inform and educate without overpowering the reader and will be well worth rereading from time to time." - Carl J. Levine, MD, The Journal of the American Association of Gynecologic Laparoscopists Promo Copy
