How To Navigate The Medicare Maze: Quick Start Guide That Will Take You Step-by-step Through The Medicare Process When You Qualify For Medicare

Synopsis

When you turn 65, or when you first become eligible for Medicare benefits, you may find the processes difficult to follow, confusing and complicated. Some people find it so perplexing that they may miss out on additional benefits and cost savings. How to navigate the Medicare Maze is a new concept and a step-by-step guide to Medicare which will show you how Medicare works, by breaking down the various parts of it in an easy-to-understand format. You will learn;

- What Medicare parts A, B, C, and D are, collectively referred to as the "Alphabet Soup" of Medicare
- What Medicare Supplement "Medigap" policies (A through N) are and what they cover
- The differences between Medicare Advantage and Medigap plans
- Why you should consider prescription drug coverage when it first becomes available, if your plan does not include one
- How to qualify for Medicare benefits,
- When and how to apply for coverage
- How to avoid any potential penalty situations
- And a lot more!

At the end of each chapter there is a step-by-step action plan which answers any questions which crop up during reading, giving you a complete understanding of everything connected to Medicare. The choices and decisions we face over Medicare can be overwhelming at times. How to Navigate the Medicare Maze will simplify those choices and help guide you through the process by helping you to make informed Medicare decisions, based on your budget and health care needs.

Wish I'd had this book a year ago when I retired and had to set up Medicare. I did a lot of researching that Michael has pulled together in a Quick concise reference book. Recommend to all that are approaching or have friends and relatives approaching the age when they need to set up Medicare. I learned a couple of things I should have done differently.

This book has quite a few typos Ã¢Â€Âˆ wrong words; wrong forms of words; punctuation errors Ã¢Â€Âˆ even the word Medicare is misspelled! (page 22 at the bottom) With this degree of sloppiness with the language, how can the information be trusted? Can I get my money back?

Has helped with making decisions about medicare plans

It might be helpful to others, but I'm a single person and I couldn't find anything in it to help single people.

Too much and too long

I really enjoyed reading this book. It was great and had so much information that will help me in a couple of years when I apply for Medicare. I recommend this book wholeheartedly!

This book is a maze. I found it very confusing and not very helpful. It mostly directs you to the Medicare website.

Basic guide, easy to read and understand. Not as detailed as I would like.
