Nightforged (Shattering Of The Nocturnai Book 1)

Synopsis

Marooned in the dark. Alone. Hunted. Faced with terrifying magic that's waking in her blood. Lilik, a seventeen-year-old from a port town slum, already knew how to suffer. This expedition was supposed to offer a way out. A chance to drag her family out of poverty. The night-drenched shores of the volcanic island, Ioene, promised mystical power. Salvation. Lilik didn't count on the eruption that destroyed the expedition's hopes. She didn't count on being blamed for the disaster. Now, the kiss of the sun is a distant memory. No rescue is coming. If Lilik is to find her way home, she must first find a way to survive. Nightforged begins the heart-pounding Shattering of the Nocturnai series. Grab it now and finish the saga with Shadowbound, Duskwoven, and Darkborn.

Customer Reviews

I loved this book! The characters are well defined, and the descriptions of both people and places quickly draw you into the fantasy environment. The story is woven with intrigue, excitement,

suspense and romance which makes it very difficult to put the book down. I highly recommend the book and can't wait to find out what happens in subsequent books!

Carrie Summers knows how to build a world you can step right into, complete with sensory details that make it come alive. With a complex and fresh magic system, Summers deftly weaves a tale of the land's beginning with the desperate need of her main characters. She left me wanting to know more about the Vanished and the civilization they created. I highly recommend it.

I read. A lot. I am so excited that I discovered author Carrie Summers. With an amazing connection between pen and the theater of the mind, Miss Summers introduces us to Lillik, a stubborn, willful but loyal friend with powers she never knew could exist. I recommend buying all four books at once (and I believe there is a prequel) because you will not want to put them down. If you want to know more, I think there is a way to message me here. Try one book. You will be hooked!

This book has me a bit conflicted, I can barely stand the main heroine, like seriously, the antagonist is a more interesting hero in this book. That being said, the world, storyline and lore crafted by the author are very definitely deserve checking out, the nightforging concept is nicely fleshed out and a great approach to the magic weapon idea.

The author had some interesting ideas, but in my view depended too much on "miraculous" occurrences to get her protagonist(s) out of danger. I felt she came up with things in process rather than having had a well thought-out story arc. Not a bad novel, but not enough for me to read additional books in this series.

I am always open to new authors than can put a different on a new World. I have book 2 and will start reading immediately. I strongly recommend!

I just finished this book and I can't wait for the sequel to come out. The thing I liked most about this story was how unpredictable it was. Every chapter had a new twist and new unexpected turn of events. This book is definitely a fun read and it is easy to get caught up in the characters lives, troubles, and emotions. I would recommend this book to all who love Science Fiction.

Not sure how I found this treasure, but will worth reading. I'll be trying the next in series.
