Patti J. Marinelli has had a distinguished career teaching Spanish at the University of South Carolina. The recipient of many university awards, she also was named Teacher of the Year by the South Carolina Foreign Language Teachers’ Association in 2008. She has extensive experience coordinating the introductory Spanish program and mentoring graduate teaching assistants at the university. Marinelli has authored two other Spanish textbooks, including the best-selling high beginner textbook Puentes. Both her teaching and writing are informed by her experiences as a certified ACTFL OPI tester and her expertise in standards-based instruction. Karin Fajardo is an educational publishing professional who has authored language learning materials for more than a dozen Spanish textbooks across all levels. As a native Spanish speaker who has lived in and traveled extensively throughout Spain and Latin America, her primary focus has been to generate culturally rich interdisciplinary language lessons. Fajardo also is a pioneer in the creation of online products and the development of authentic video for instructional purposes. Her current writing interests focus on self-directed learning.

I’ve already had the experience of teaching language, so I’m critiquing as a teacher and a student. The organization of this book is confusing and just doesn’t seem to be the most efficient way learn language. Also, I am not a fan of the on-line subscription, that the course depends on, because it

expires, and can't be transferred, rendering the very expensive book unusable without it.

A must have if you are taking online Spanish classes. I used this book in my final semester of undergrad and it was incredibly helpful. With the use of the connect online feature and the book materials you will be fully fluent in a matter of two months as long as you practice and stick to it.

Absolute garbage material.

With this book it was easy to follow the lesson given in class. However, without the access card there is no way to complete the homework. Overall its a good book and a great way to lean Spanish but I do feel like the product over all is over priced.

This was a teacher's manual, not the actual book students are required to have. My son had to buy a new one at the USC bookstore when he started the semester.

It's a pretty good Spanish book, I like all the activities in it and all the online work that goes with it too

Super Helpful for beginning a new language.

Book is expensive but very helpful!!
