I decided to buy a bookmark because the bookmark I had recently acquired had gone missing after only one tour of duty. I previously used four bookmarks, often simultaneously, but these had become wrinkled and bent with age. Don't get me wrong - when I placed one of them between the pages of a book I had temporarily stopped reading, then later picked up the book, I could still find the place in the book where I had left off, with exactly the same precision and timeliness as if the bookmark had been freshly printed and cut and slipped in a newly-purchased bag of books. But every now and then you just need to replace your bookmarks, you know? Besides, in recent years my reading had slowed down considerably, so the four wrinkled, bent bookmarks doubly reminded me of my inevitable hurtle toward aging, superfluity and death. Anyway, I have this fab new bookmark for which I have great plans, and then, after a week away, it's not there. It's nowhere. I

looked in the books I had recently completed, I looked behind my nightstand, everywhere, to no avail. That's when I decided to take action...I cleaned out the drawer in my nightstand and found an old notepad upon which I had long ago written four pretty wise bits of advice. Then I decided to buy a bookmark. When I entered the term "bookmark" in the search bar, I was presented with numerous choices, none of which appealed to me. As I was about to give up, I saw this Four Agreements bookmark. I immediately recognized the Four Agreements as the bits of wisdom I had left on my notepad many years ago. I took that as a sign and immediately bought one. Then I thought, "Hey, why not rage, rage against the burning of the light, sort of, and buy two?" So I did. They showed up two days later, and to my surprise, turned out to be so much more than I'd expected. Not only do the actual bookmarks show the promise of being able to stay exactly in the book where I place them, they come packed in a plastic sleeve with a black cardboard backing, each of which makes an excellent bookmark in its own right. So now, instead of two new bookmarks replacing one lost bookmark (that had in itself replaced four), I had six. I have to admit, the black cardboard backing gave me pause, for two reasons. First, it's black. Obviously funereal. But also quite stylish. I decided to focus on the stylish. Second, it has a punch-out at the top, obviously intended to facilitate its hanging on the revolving book stands of airport gift shops and other such establishments. But, if looked at in a different light, it's also a pretty cool, art deco representation of a sunset over the ocean. Wait, that's going back to the pessimistic side...let's switch coasts and call it a sunrise over the ocean. So now I have a stylish bookmark depicting an art deco sunrise over the Atlantic. You'd think that would be the end of the story, wouldn't you? But it's not. As these things often turn out, as soon as I had received my new bookmarks, I found the missing bookmark that had started all of this. Now I had seven bookmarks, which, by anyone's standard, is too many. So I decided to do the right thing by my retired bookmarks - rather than put them in some drawer or tucked away between the pages of a book I'd already read and re-shelved (sort of like a permanent working retirement), I tucked them in the nice plastic sleeve and gave them a permanent home in the notebook in which I record the titles of all the books I've read by year. So, to conclude this review, this is a great bookmark, of high quality, with excellent value and upon which are written four bits of quite useful advice. I heartily recommend it.

Nice quality product. Got one for a friend and she loves it. Perfect to be able to remind yourself of the 4 agreements. They are printed in full on the back, which it does not mention in the write up.

Very nice accessory to go with "The Four Agreements" book. I only wish I was able to order two of

the bookmarks, as I ordered two of the books as gifts -- the seller only allowed me to order one of the bookmarks. It is nice to have a brief list and explanation of the four agreements listed on the bookmark. The quality of the bookmark was excellent and it comes with a nice see through sleeve.

It is a bookmark.. and in a word there is nothing so special about marking a page because you can do that with anything but this bookmark has the 4 agreements on it and the tassel is cute with a emblem of a sun on it. I like it because when others see it ... it has something to say and also if you wanted to enlighten others about the 4 agreements you could do so by giving it as a nice little giftlet.

High quality, bright colors, tassel in excellent condition! I will continue to purchase these as I believe the quality is phenomenal, the price is fair, and these are items that will last that I can pass down to my granddaughter along with my book collection. Thank you so much for an amazing item!

Very pretty bookmark with wise words on the back. Making it waterproof would make it a 5-star. Mine got some water spilled on it and damaged it slightly. Overall, a lovely bookmark and enjoyable to use.

This is a nice bookmark in that the string & bead are quality additions. I got one for myself and one to accompany the book I bought for a friend as a gift.

I wish I could get everyone in the Universe to read the Four Agreements. This book has totally changed my life and thinking. The bookmarks are beautiful and everyone I have given one as a gift loved it.
