Synopsis

The much awaited sequel to the bestselling Chosen by the Vampire KingsBBW MÃ©nage Romance with no Cliff-hangerTanya has just entered the final stage of her pregnancy and excitement is running high. Her mates insist on putting a crap ton of rules and regulations in place to ensure that her and the baby's health are not put into jeopardy. They become more and more overprotective with each passing day and may have gone a little overboard in the process.She loves them but it's freaking irritating. They need to understand that she is not some wilting flower, liable to break at any second. Tanya is a strong woman, capable of handling two dominant, vampire males in their prime. This theory is about to be put to the test along with her patience, which is wearing desperately thin. Especially when all the unmated, vampire females attempt to get the kings to evoke an ancient lore. A lore which allows the kings to bring temporary, rut partners to their bed while the queen is too ripe with child to accommodate their needs. Like freaking hell she will ever allow that to happen!!If Brant and Zane think that they can evoke such a lore and continue to keep breathing, they have another thing coming.This book is 49,000 words/196 print pagesThe story contains strong sexual themes/language and is not intended for readers under the age of 18. Customer Reviews

This is the last book in this series and it ended VERY WELL. Relationship tension, suspense, near death experience, and a new life. This was a great book to end this series and start the next series. I am looking forward to see how it continues to unfold.

Ok. So Grant and Zane were not total jerks in this one. I like how excited about the baby they are. They help out. They still fight but that should be expected. I really hated that stupid law. Do they not care how much stress that puts on the relationship? Even non royals. Ridiculous. Great story.

I'm so glad that this book wasn't just a fluff piece. It was really good. It's hard to get character development in a short book like this (and it does help that they're already established characters) but she managed to do it. There were a number of moments in this book they had my heart and my throat. I highly recommend this book .

Definitely worth the read. But as you can see, I read the set, which I totally recommend. I'm not a cliffhanger kind of gal. These books have you laughing at times. The Female lead is funny and spunky. A great mix. Now onto the next set, (2) Stolen by the Alpha Wolf,. Definitely recommend. :-)

It took me a long time to have the money to read this (book 5), but; it's so worth the wait! I want to tell Charlene Hartnady, and; all those who read this review ; " I have read so many of these ebooks, they're all starting to sound a lot alike! Lol., but; nothing could touch this womans "Creative., Mind blowing genius! This book kept me Spellbound! People ; this is a must read! You will not regret it!

Mated to the Vampire Kings (The Chosen Series Book 5)Â Absolutely love this book, and every other book in this series. There's humor, action, hot sex, and hard decisions. I mean, could you choose between two hot vampires that are fighting over you? Yea, that's what I thought. They're opposites, but both have a lot to give a girl...Charlene Hartnady has a wonderful imagination and the talent to put it to good use. Love her writing, and have every intention of reading everything she writes. I have yet to be disappointed.

Overall an excellent book and great series. Well written and thoroughly enjoyable. I can't wait to

read the next series beginning with A Mate for York.

good read and really enjoyed the it. Would read more by this author is future. Plot was great and believed
