Chemistry: A Molecular Approach (4th Edition)

Synopsis

Note: This is a standalone book and does not include access card/code. If you would like to purchase both the physical text and MasteringChemistry(Access Card), search for: 0134103971 / 9780134103976 Chemistry: A Molecular Approach Plus MasteringChemistry with eText -- Access Card Package. Package consists of: 0134112830 / 9780134112831 Chemistry: A Molecular Approach 0134126424 / 9780134126425 MasteringChemistry with Pearson eText -- ValuePack Access Card -- for Chemistry: A Molecular Approach For courses in Chemistry. Building 21st Century Data Analysis and Problem-Solving Skills in Modern Chemistry The Fourth Edition of Nivaldo Tro's Chemistry: A Molecular Approach reinforces development of 21st century skills including data interpretation and analysis, problem solving and quantitative reasoning, applying conceptual understanding to new situations and peer-to-peer collaboration. Nivaldo Tro presents chemistry visually through multi-level imagesâ “macroscopic, molecular, and symbolic representationsâ “helping readers see the connections between the world they see around them (macroscopic), the atoms and molecules that compose the world (molecular), and the formulas they write down on paper (symbolic). The benefits of Dr. Tro's problem-solving approach are reinforced through digital, Interactive Worked Examples that provide an office-hour type of environment and expanded coverage on the latest developments in chemistry. New Key Concept Videos explain difficult concepts while new end-of-chapter problems including Group Work questions and Data Interpretation and Analysis questions engage readers in applying their understanding of chemistry. The revision has been constructed to easily incorporate material to engage readers. Also available with MasteringChemistry MasteringChemistry from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging you before, during, and after class with powerful content. Instructors ensure you arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalyticsâ„¢. You can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess your understanding and misconceptions. Mastering brings learning full circle by continuously adapting to your learning and making learning more personal than everâ “before, during, and after class. Note: You are purchasing a standalone product; MasteringChemistry does not come packaged with this content. Students, if interested in purchasing this title with MasteringChemistry, ask your instructor for the correct package ISBN and Course ID. Instructors,

contact your Pearson representative for more information. If you would like to purchase both the physical text and MasteringChemistry, search for: 0134103971 / 9780134103976 Chemistry: A Molecular Approach Plus MasteringChemistry with eText -- Access Card Package. Package consists of: 0134112830 / 9780134112831 Chemistry: A Molecular Approach 0134126424 / 9780134126425 MasteringChemistry with Pearson eText -- ValuePack Access Card -- for Chemistry: A Molecular Approach

Book Information

Hardcover: 1312 pages

Publisher: Pearson; 4 edition (January 17, 2016)

Language: English

ISBN-10: 0134112830

ISBN-13: 978-0134112831

Product Dimensions: 8.7 x 1.7 x 11 inches

Shipping Weight: 5.8 pounds (View shipping rates and policies)

Average Customer Review: 4.2 out of 5 stars 543 customer reviews

Best Sellers Rank: #566 in Books (See Top 100 in Books) #1 in Books > Science & Math > Chemistry > Molecular Chemistry #1 in Books > Science & Math > Chemistry > Physical & Theoretical > Physical Chemistry #3 in Books > Textbooks > Science & Mathematics > Chemistry

Customer Reviews

Nivaldo Tro received his Ph.D. in Chemistry from Stanford University. He completed his postdoctoral research at the University of California at Berkeley. In 1990, Dr. Tro became a faculty member at Westmont College in Santa Barbara, California. During his time at Westmont, he has been awarded grants from the American Chemical Society, Research Corporation, and the National Science Foundation. Dr. Tro has received Westmont's outstanding teacher of the year award three times. He is the successful author of the market leader text, Introductory Chemistry, 5e (Pearson), Chemistry: A Molecular Approach, 3e (Pearson), Chemistry: Structure and Properties, 1e (Pearson), and Chemistry In Focus: A Molecular View of Our World, 4e.

I have just bought this brand new 3rd edition and compared it with my 1st edition. They are almost exactly the same, even down to the page numbers. This is an old scam by textbook publishers, but usually they will at least change around the table of contents and put in new diagrams, photos and tables. Not so with this title. And if the 1st and 3rd editions are almost exact copies, then I'm sure the

2nd edition would be fine too. Also, do not think that you need to buy the "Custom Edition" for your school, it's just the campus bookstore's and publisher's way of keeping you off and charging you double for an already overpriced book.

This is a good chemistry book for anyone in an AP chemistry or college chemistry setting for those taking their first Chemistry course in a post secondary school setting. I have seen a better book for this topic but this book does serve its purpose and I would recommend using it consistently especially if this is assigned in your course. The explanations are fairly straight forward and examples are numerous throughout the book. If you follow this book there is absolutely no reason why you shouldn't get an A in the course you are taking unless your teacher decides to digress to more advanced topics such as Organic Chemistry.

Textbook came slightly damaged and some pages were bent and ripped (it seemed like a manufacturing error due to the fact that the pages were larger than the rest) but I received them quickly and at an amazing price. Renting this textbook is worth it.

My book came in at the due date with that brand-new smell and look. All the pages are intact and nothing is missing. No highlight or pencil marks in the textbook either. Although this purchase costed my mom \$280, what she bought was more than just a normal textbook—she spent \$280 to invest in my future (jk, she just wants me to pay her back \$5000 for every 1 cent she spends on me...typical parent). xD

Fast Shipping. Excellent quality product. Highly Recommend.

Fantastic deal! Book arrived quickly and is in great shape.

Its a good book, and you can clarify the lecture notes with it. The read is easy and has practical examples which helps.

This chem class was great because that it used a molecular approach. I felt it made visual models more easy to follow. My understanding of chemistry has improved from using this text versus others. Tables are very useful for summarizing information and text is linearly organized and easy to follow. Also this is the best price anyone in my class got for the text. I am amazed by the

price. However I was VERY disappointed with the shipping. It took weeks for it to get here despite being shipped from the U.S and arrived on the last date of the guaranteed shipping date which was provided after purchase. Probably my bad for not reading more clearly, though.
