Caller Of Bones: A Curse The Stars Novel

Synopsis

During the magical war, Raven's held captive by a mad witch at the edge of the Dark Wood. When she steals an illegal magic the evil wizard is searching for, a hunt for this young dreamer of bones begins. "If you like books like The Bone Witch and Truthwitch give his one a read!" Dislexic Reader "This is a great start to a fantasy series: witches and wizards, pirates and dragons. It reminds me of the fantasy films of my childhood, such as The Neverending Story and the Princess Bride." Five Stars from The Book Curmudgeon "A must read! I can't wait to see how this story unfolds!" Reviewer "Evokes the imagery of Mists of Avalon and the crushing defeatism of magical slavery with the hope of revenge." Brad Horner Top Goodreads Reviewer "Captivating!" Ash Book Reviews Get the first book today!

Customer Reviews

This is a great start to a fantasy series: witches and wizards, pirates and dragons. It reminds me of the fantasy films of my childhood, such as The Neverending Story and the Princess Bride. In a world on the brink of war, two groups are unwittingly caught in the midst of upheaval. Raven steals an

illegal magic little knowing that an evil wizard is searching for it. Together with her friend, Sim, Raven is being held hostage by a powerful witch with secrets of her own. On the other side: John harbors a family secret that haunts him. He has no memory of what happened in his past, but he's been running from it since he was a child and trying to find answers. Wary of being dragged into a war with wizards, the pirate collides with a witch - a witch wanted by the Dark Wizard. As the two groups' storylines converge, they realize they can help each other and not just in terms of saving their lives, but working out who they are. All in all, this was a great romp of a read and I'm looking forward to the next one. If you like fantasy, I recommend you pick this one up now and it could be read by people of all ages.

You'd never know this was the Author's first time writing Fantasy. The book is well written and captivating. I loved each and every one of the Characters. They were written very well. I didn't like that it never said the age of any of them. So I was at a loss there. Also the book is written real formal like. Not my usual writing style I go for but it was still a really good read. Sim was mature and caring. I fell in love with him right away. Raven. At times she seemed young and other times old. I liked how she handled her problems and that she felt very real life. John. I really liked him. During his POV I was laughing and smiling. Even Esme she had her reasons even though we don't quite know the full reason you can tell by reading. Over all this is a really enticing Fantasy read with depth, action and even romance. I will be following this Author waiting on book two. Will John be able to save his hell cat. What about Raven. And poor Sim. After all that he's gone through and to end the way he did. I need to know the answers to these questions.

I loved, LOVED this book. The action, the adventure, the romance. It was all so great. It's told from the pov's of John and Raven. John was such a great hero. He's got a haunted past that he can't quite remember and a fierce witch, Mira, on his hands. Mira's got a sad past of her own, but she refuses to take the hand life has dealt her. Raven was so brave and I love her storyline. You could always tell she was more than she appeared, but finding out how powerful she really is, is amazing. She's being held captive with Sim and he was just perfect. The way he tried to protect Raven and was always there with a crooked smile to lighten the burden of their situation. I loved how everyone seemed like strangers, but their lives were interwoven in so many ways. You get double the romance and both are swoon worthy. Both John and Raven had me smiling from ear to ear from the things they were saying. The magical aspect was so amazing from magic battles, to a dragon, to realizing just how powerful certain people were and how powerful they could become. As per the

Logan Keys norm, the end was gut-wrenching. I saw the pages dwindling down and was like 'No, no, no, NOOOO'. The ending had me covering my mouth at both what happened and the truths that were revealed. It makes you look back on the story and wonder if certain people were really bad guys after all, if others were to blame, if people made the right choices. I cannot wait for the next book.

This is a different offering from one of my fast becoming favourite author Logan Keys who wowed me with her The Last City series. I picked this one up because fantasy has always been my favoured genre and because it's Logan's. If you haven't heard of her, you'd best look her up right now. The story began in a not so distant past where a dark witch & wizard set their sights on a young girl with ancient powers hidden away from the magical world. So arrogant and sure of their success, they didn't take into consideration the young girl's brother and his bravery and love for his sister. Together, the young ones fought them with disastrous consequences. Fast forward a few years, Raven is now a young woman with a hazy memory of that night believing that she was somehow responsible for the death of her loved-ones and that the dark witch took her under her wings making her forever in her debt for her very existence. She has no idea of the powers that ran in veins which Esme managed to hide from herself as well as the rest of the world. Believing herself to be human, Raven served Esme like a slave along with her friend Sim as she followed every bidding demanded from her while silently hoping that one day she would be free. Across the sea from her, another story unfolds involving a dashing pirate who came across a runaway witch. John kept a heart-breaking secret in his past under lock and key away from even his closest friends choosing to sail away into the welcoming waves of the sea. Until a witch stowed away in his ship and stole his heart. Fate eventually intervened causing their paths to cross resulting to a magical adventure featuring a dragon, falling stars, colliding hearts and an epic battle between wizards and witches. Honestly, I wasn't entirely sure if I would love this story as much as the other books from Ms Keys because there just wasn't enough blood and gore in this one which I've attached to her books. But this author created such a beautiful and colourful world rivalling the Pirates of the Caribbean that I couldn't help but be snared into the magical web leaping out from each page I read. Would I recommend this book? Hell, yes! You would not be disappointed.
