Customer Reviews

McGraw-Hill authors represent the leading experts in their fields and are dedicated to improving the lives, careers, and interests of readers worldwide

I bought this for my son and was disappointed at how very little is expected in grade 8. The actual type of assignments I liked but the work itself is more appropriate for an elementary student. We donated it. I ended up using other materials that I felt were more challenging for a Junior High Student who is preparing for High School.

We've used McGraw-Hill and CK-12 foundation for many years of home schooling. We love them!

I love the activities included with each lesson and the grade appropriate words. It is also a great

idea for kids in public school as a tutoring/additional aid for school.

Excellent service, great product.

just what I was looking for to assist with homeschooling. It is a good grammar book and now I just need to find the teachers edition.

I started homeschooling my daughter thru Texas Tech ISD and needed books. After paying a large amount of money for poor quality used book through there bookstore we dicided to shop around for the remainder of her textbooks. We found this book for half the price and brand new. all I can say is AWESOME.

this book is very good i think. it's clear and understandable. the pages are simple witch i like. the only thing is theres no answer key.

My daughter really likes this book. She says it's easier than the 7th grade book. So we're very happy with it.
