Customer Reviews

features of Science Explorer itext on CD-Rom

100% satisfied!!!!!! a little gem arrived before expected, love them Well made and should last for year. I've ordered from this company before and they seem to make a quality product. This is well-designed and works very well. I've tried some similar products in this price range and this is one of the better ones. Excellent product, works great! Will be buying more for gifts for my sisters! Neighbors loved it too.
