Synopsis

From the Author: Wouldn't you like to know: Why she text you so much before but now NOTHING?? Why your multiple texts are killing the attraction? Why she is playing so hard to get? If she actually is interested in you? How to have her text you back immediately? How to safely flirt with the amazing results? How to have her waiting for your text rather than the opposite??? Imagine, all of the cash you are leaving on the table by not understanding how to get what you want! Imagine, all of those dates, with so many hot girls that you didn't go on simply because you couldn't text right! Seriously, texting incorrectly can crush your chances with women permanently. I can't tell you how many women have vented to me their frustrations at what you are doing. These women WANT you to understand, they WANT you to say the right things! But like breaking wind mid sex, it is incredibly easy to snuff attraction. Let me teach you to really understand the opposite sex, and land that date with that really hot/amazing girl. -Mike Masters

Waste of money. This is suitable for socially awkward people and somebody who never dated or texted. Nothing useful , just a situations and examples from the writers experience.

This is a book with a lot of potential, but it falls short as a guide to help men. In Mike's world, girls fall in love with him, text him playfully and he has to manage those relationships. News Flash. 99% of your readers, and 99% of men in this world, are not epic players who have women tell them "you are so cute" or "when are we going to F&# or get texts from girls like "what are you up to tonight?" or "so I haven't heard from you in a while". The biggest problem for beginner and intermediate gamers is getting her to meet up with you. You think you've had a good conversation and then suddenly, you text her two days later and she doesn't respond. I understand that a GREAT text message can salvage a bad approach. However a bad text message could kill a mediocre one. My suggestion: Give readers one or two ideas for what to text her as an opener so you can get her to respond and set up the date. Or provide examples of full conversations where guys are successful at hooking her over text which leads to a meet. Instead of getting one star, I've decided to give the book another star because of two conversations I think could prove helpful for managing relationships. First, when the guy has to respond after the girl cancels a second time: "Hey Jim, so sorry but that date we had planned? I can't go, I have too much work." "Really? This will be the second time that you have cancelled on me and with only one-day notice?" "So sorry, I will make it up to you." "Honestly I don't know if I want you to. Now I have to make new plans. Is your time more valuable than mine?" "Okay, now I feel guilty." "I honestly am not trying to punish you, but changing on me last minute isn't cool." "Hey, tell you what, let me move things around and keep that date." "I would appreciate that." "This guy is firm and shows he's unafraid to lose her. Well done. And second conversation, after a date: "had a great time last night, you are pretty funny" "thanks" "I think you've affected my dating life" "Whys that?" "I want to find more cute med students to hang out with now!" "Whatever, none are as cute as me" "Currently rolling my eyes and making gagging sounds" "Shut

up!•This guy is playful, hooks her with his second text and effectively uses push/pull.

I am writing to respectfully request my 3.99 back - the state can keep the sales tax. This "e-book" was pendant, painful, trite and boring. My expectations upon purchase were to be polite, understated. By the time I completed the diatribe, it failed to meet those dumbed down expectations. The general gist of the book is: relationships are about equilibrium (teeter-totters) and texting is therefore subject to the same rules. Be clever, confident and establish boundaries and "Oh yeah and use Facebook and use emojis". My advise to other people considering is this book: don't bother. It only allows the author to continue his delusional belief that he is in fact a "relationship expert".

Can't believe I was dumb enough to buy this crap. I was young, when he raped my bank.Lol.

I read through the item. He has a humorous side to him. Many of his points should be common sense, but I have found some value in what he is saying. This read is not intended to be used as a 'pick up' guide. It does, however, give good pointers on how to improve your communication skills.

It reads like most PUA books. Has good anecdotes of seemingly real interactions. I wouldn't call it a must read. But if you want some experienced insight in how to communicate by text alone it's worth the read.

Unlike Richard la Ruina's "The Natural" and Roosh V's "Bang" this book covers flirting outside of the bar/club scene. This man's way of teaching text appeal can be immature several times throughout the book but it has helped my text game. However, I would not recommend using these techniques as your main game. I would read the two books previously mentioned before moving onto this one.

Just finished Text Appeal-For Guys-The Ultimate Texting Guide. I have to say that it was money well spent! A good portion of it i applied into current verbal sparring sessions i have going on with several women as i was reading it. This is really good stuff! A very easy read with lots of humor and got my gears turning. I really liked the part when you were remodeling the house and painted the floor. I paint as a profession so i could relate. I would enjoy getting the opportunity to read your new book and giving a review. Thanks again for the knowledge bro.P.S. Who was the porn star anyways? Swear to God i won't tell. Lol!
