Found this book to be very interesting and an easy read. I feel it's a must read for any serious entrepreneur. The books includes detailed information on all the important areas of law; including examples on applications of information covered in each chapter. Very concise and informative. I didn't feel like any of the material covered was a waste of time.

If you're an entrepreneur, you should know the information contained in this book. I had to buy this as a textbook for a class, but I recommend it to anyone who is thinking of starting your own business. It doesn't replace the need for qualified legal help, but it will give you a strong foundation so you know what you're getting into.

A book that every entrepreneur should read. Read it before you start the company, it will help you a lot.

Good Book and timely delivery. Great item. The The Entrepreneur's Guide to Business Law is great

book for someone who is thinking of starting new business or for business law understanding.

Very insightful. They cover this in some law schools across the US, so it's a good read for the average person to get on that same playing field.

Well organized outline, and very helpful. It included real life examples and cases. Definitely a book every Entrepreneur should own.

Very happy with the product! Works great exactly as described. Going to order it again too. Very pleased too. Great!

So I bought this textbook and leafed through the first hundred or so pages before losing interest for a bit and subsequently leaving it on my shelf for a time. Today I had a friend posit a question about venture capitalist involvement in a small start up business so I referred to my "Entrepreneur's Guide to Business Law." Lo and behold, practically the entire chapter 13: Venture Capitalists was missing! Pages 375-475 were completely gone. There was no evidence that the book had been tampered with as there were no tears and the binding seemed to be in tact. It seems like my copy was a horrible misprint. I purchased this book as a reference guide, as I am often involved in entrepreneurial ventures. This revelation is extremely disappointing. Though it is too late for me to contact the seller, I advise you to ALWAYS CHECK that you have received 100% of the pages of the book, advice I will be taking from now on.
