Public And Private Families: A Reader

Synopsis

Public and Private Families: A Reader, seventh edition, exemplifies Andrew Cherlin's belief that families matter in both the public and private sphere, and the book's 28 readings reflect this notion. Keyed to the fourteen chapters of Cherlin's successful text Public and Private Families: An Introduction, also in its seventh edition, the reader includes both veteran and updated materials that both supplement and enhance the introduction.

The book was in good condition!

This book was in perfect condition, it was delivered before the date I expected it, and it was priced very reasonable. Unfortunately it wasn't the book I needed. So make sure before you order you are asking for the right book.

This book was for a class and for required reading I got a lot of information.

It's preserved very well. I am satisfied

This is not the actual textbook, learned that the hard way. It's the reader guide.

Well qualify!

This book has good insight and great stories.

A great seller. Everything was as described.
