## Customer Reviews

PreS-Gr 3 "A collection of great craft ideas that center on the repurposing of cardboard tubes and egg cartons. Bound in sturdy cardboard, each volume is a bright and colorful celebration of recycling. Illustrations and easy-to-follow instructions in combination with a clean layout make this an accessible selection for young crafters. The projects vary between the two titles: airplanes, giraffes, bowling pins, trains, and desk sets in Cardboard Tubes; puppets, fire engines, masks, pirate ships, and treasure chests in Egg Cartons. The emphasis on reusing household materials makes this a great option for the environmentally conscious and those looking for activities with inexpensive materials. VERDICT A solid entry into recycling and crafting for young students, for use at home or in library programs." Cynde Suite, Bartow County Library System, Adairsville, GA

If your house is anything like mine you have cardboard aplenty! This book is the perfect solution for those with tons of cardboard and a love for crafting! These creations made almost entirely from the cardboard and paint are exceptionally cute! The step by step instructions are easy to follow and have simple accompanying images. One of my favorite things about this book is that each supply list is tiny! You can make so many cute things with a few items you probably already have on hand. Genius! My little guy and I love it! \* I was given this book in exchange for an honest opinion, which this is.

I was so happy to see this book on making things with cardboard tubes. My grandson loves making different things out of empty things from home. Now he will be able to choose from 51 things. He is 10 years old so this will be a great resource for him to use. The illustrations are outstanding along with the instruction. Easy to follow along in making your project. Totally Fun. I would recommend this book. I was given this book from Quarto Publishing Group in return for a honest review.
