Your Labrador Retriever Puppy Month By Month, 2nd Edition: Everything You Need To Know At Each Stage To Ensure Your Cute & Playful Puppy Gr

Synopsis

"Your Labrador Retriever Puppy Month-by-Month" provides new puppy owners with everything you need to know and do at each stage of development to make sure your playful, energetic puppy grows into a happy, healthy, and well-adjusted companion. Expert authors Terry Albert, vet Deb Eldredge, and breeder Joanne Olivier team up to cover all the questions new owners tend to have and may not think to ask, including: What to ask the breeder before bringing your puppy home. Which vaccinations your puppy needs and when to get them. How to make potty training as smooth (and quick) as possible. What do to when your puppy cries at night. Why and how to crate train your puppy. When socialization should happen and how to make sure it does. When your puppy is ready to learn basic commands-like Sit, Stay, and Come-and the best way to teach them. When and how to go about leash training. How much exercise your puppy needs to stay physically and mentally healthy. What, how much, and when to feed your puppy to give him the nutrition he needs without the extra weight he doesn't. When your puppy is ready for obedience training and how to make sure it works. How and how often to bathe your puppy, brush his coat, clip his nails, and brush his teeth. How to know what requires a trip to the vet and what doesn't. What causes problem behaviors, when to expect them, and how to correct them.

Customer Reviews

Terry Albert has been working with dogs for over 25 years as a dog trainer, foster home, and pet sitter. A long-time Lab owner, she has previously written books about Basset Hounds, Labrador Retrievers and Boxers. Her writing credits include Petco, PetDoc.com, Delta Society, and numerous websites and newsletters. Deb Eldredge, DVM, is a graduate of Cornell and the winner of the

Gentle Doctor Award for best client care. She is also an award-winning writer, the author of 10 books on pets, and the past President of the Dog Writers Association of America. Don and Barbara Ironside have owned Labs for 38 years and shown them in conformation, obedience and hunting tests. Under the name Fawnhaven Labradors, they have owned and bred multiple breed champions and hunting dogs. Their achievements include Best Of Breed at the Labrador Retriever National Specialty along with numerous obedience titles and Master Hunters.

We haven't yet got our puppy but I feel prepared after reading this book. It seems like a good starting point if your thinking about getting a lab puppy. I love how its divided into ages and what to expect. I've read only the first few months as that's the area we are in so I'm looking forward to reading more as our puppy grows.

I'm glad I got this, although it didn't really help once I got the puppy. I read it before I got my puppy and it helped me give a very basic guidelines of what to expect which is what I needed. However once I got the puppy and I re-read and followed along with the book a lot of the information didn't match up to where my puppy was age wise; It just progressively got more and more confusing. So I would read it if it's your first puppy, like mine is but take it for a grain of salt and enjoy your puppy and try not to stick to the book so much. It's much more fun that way!

Great book and broken down by month. It had lots of great tips from the type of food and toys and bed to get.

It's a a great book. Charts the behavior to expect. love it

Pretty much right on! I have not read the whole book yet. Just trying to keep pace as puppy grows!

The absolute must have book for labradors!

Got this for my brother who just got his first lab puppy and had lots of questions. He said he has found it to be very useful, being a novice with the breed.

Got this for my sister's new puppy and they loved it.
