Best book for a toddler !

We have several of the Little People books and they are among my 2.5 year old's favorites. The text on the page isn't terribly innovative or a good story, but there are a lot of flaps and fun things to see. They also teach colors, shapes etc.

Fun lift the flap book for little hands! My 18 month old loves reading these books with several flaps to lift on each page it always keeps him busy! Have several of these books! Love them!

I have the old school little people books - illustrations were way cuter back then. My kid prefers

those books too (not just me). Not worth buying, sorry to say.

Great book for my two yr old daughter. There are so many flaps that it keeps her busy for quite awhile. The pictures are cute and there are great learning pages, counting, colors and verbs.

Great for babies beginning more advanced fine motor skills (4-5 months+). Flaps open from left-to-right, top-to-bottom, even diagonally. Bright high contrast, simpler images than classic Little People books. My baby is now 8 months and loves opening the flaps.

Our grandchildren love these books! Perfect for little hands, sturdy and makes learning fun!

My son is 3 and loves these books. Not much of a story or anything but the kids like em.
