Customer Reviews

Beautiful harmony for voices! However, some piano parts are difficult to read (just supporting voice accompaniment?)

We are singing this in my Chorus and the music they gave me just had the women's part and not the piano part or the men's part so I wanted to get a full score. This is such a great resource to have and this book was exactly what I needed! I'll definitely be using it over and over again so it was a very good investment.

Beautifully done score. Extremely readable words and notes. Highly recommend.

This Score was absolutely perfect for my needs. I am a Production Stage Manager and was looking for something to use as a reference to call all my cues and follow during the show, and needed to be able to see not just all the different vocals but the piano as well. I bought this one based on the reviews and crossed my fingers, and once it arrived was so so pleased to discover that it was exactly what I was looking for. Highly recommend.

Perfect for our recent choir performance. I enjoyed being able to follow the orchestra score.

Complete score. Met my expectation.

Perfect for the choral performance we are doing. Well laid out. Easy to read fonts.

I got this because I wanted to have more than just the choral score when my choir performed it. My only problem was that it was too tall to fit into any black folder I could find so I had to use black paper to add an extension to my folder in order to have it on stage with me.
