Plenty of good information for bbq enthusiasts of all levels using many different kinds of cookers. Haven't found a better all around book on the subject, yet. Now that I have the kindle version, I can easily reference it on my tablet or phone.

Lots of tips, tricks and recipes to get the right consistency in your BBQ cooking. Great book for most people, whether you are a beginner or seasoned semi-pro, this book has lots to help you along the way.

Tons of ideas in this cookbook. Our first try, the Quick BBQ beans, made the price worth it alone. We took some to my father and he's told me three different times how good they were!

As ALWAYS, Raichlen has put together a great cookbook !!! So many great recipes to choose from, it's hard to know where to start

Bought for a gift after buying one 4 myself. Great 4 anyone who loves grilling.

Great book, lots of recipes, lots of grilling secrets!

My husband loves Steven's barbecue books. The only complaint that the book doesn't hold up well at all. Pages fall out

I've always been a natural with the grill and always been able to cook in general but this book has really helped me learn new tips and tricks along with helped me to expand to new areas of grilling. Everything is broken down into stages and classes in this book. The beginning of the book is basically a warm up to grilling for beginners then it progresses into harder and harder stuff. Each type of food is broken up into section. chicken sea food beef has a couple sections because of the types. The best part is the tips sections and explanations of how to perform certain cuts and/or procedures. I've been reading that for some time now. I even go through the other chapters just to

see what other tips are specific to those chapters.and so on.There are things from simple yet great to intricate that will make your taste buds sing for hours. I've tried many of these and wow, I've learned that a simple book can really change how you grill foods and change it for the better!This a guys book for sure. I can never sit down and read a book but this one I can't put down. There is just so much to this book it's crazy.Some of the best are the simple ways to make BBQ sauce that you bought from the store really fit into the style of chicken, beef, and so on that you are grilling to make it one of a kind.
