

The book was found

# **Student Solutions Manual For Chemistry: The Molecular Science, 4th**

## **Synopsis**

Contains fully worked-out solutions to end-of chapter questions that are numbered in blue and answered in the back of the text. Solutions match the problem- solving strategies used in the main text.

## **Book Information**

Paperback: 496 pages

Publisher: Brooks Cole; 4 edition (June 10, 2010)

Language: English

ISBN-10: 1439049637

ISBN-13: 978-1439049631

Product Dimensions: 10.8 x 8.5 x 0.9 inches

Shipping Weight: 2 pounds

Average Customer Review: 2.3 out of 5 stars 5 customer reviews

Best Sellers Rank: #380,603 in Books (See Top 100 in Books) #49 in Books > Science & Math > Chemistry > Molecular Chemistry #1310 in Books > Science & Math > Chemistry > General & Reference #1420 in Books > Textbooks > Science & Mathematics > Chemistry

## **Customer Reviews**

Some of the 'detailed explanations' don't say much more than "see such-and-such example in the text book." It has been somewhat helpful but a couple of months of weekly one-on-one tutoring (for about the same amount of money) would be much more effective.

Only somewhat helpful. It seems to only provide detailed solutions to the questions with blue numbers. Even though they aren't as detailed, those answers are already in the back of the book. If you want to try the other problems and see those answers, you'll have to look elsewhere.

This book is really really helpful for anyone taking general/inorganic chemistry for the first time in college. It has all blue numbered problems in the text book worked out and explained in this guide. So helpful. Saved my grade!!

The solutions are the EXACT problems on the book. It was NOT helpful,

The few times I tried to use it, I ended up more confused than when I started. Some of the answers

are completely wrong, and others just point you back to the textbook for an explanation. I guess ultimately it helped me, but not in the way you might expect. It helped because when I looked things up and still couldn't come up with the same answers, it made me think I didn't know what I was doing. My response was then to ask lots of questions and find lots of other sources until I was confident that I was right and it was wrong.
