Customer Reviews

Not well written and very short. The recommendations sound difficult to me. I don't know if I will ever be able to round up all the items necessary to follow the instructions.

My mom told me to research about hair loss since my dad is starting to lose his hair. Good thing I came across this book. It's good as it explains what causes hair loss, how it happens and what you can do about it. It's more than just telling you to try this product or that product. It's short but I learned a lot and I can't wait for my dad to try it out.
