set trainer for movie dogs. As a lecturer on positive training methods, her enthusiasm inspires audiences to develop fun and rewarding relationships with their own dogs. Her methods foster confident, happy dogs who are motivated to do the right thing rather than ones fearful of making a mistake. She shows us how to develop joyful relationships with dogs who balance enthusiasm with self-control.

I'm so glad I didn't pay but \$2 for this. If you are new to training games with your dog, or need ideas as a new trainer, this would be a good thing to have on hand. As someone who has trained for 2+ years, has 4 dogs, and works them regularly, I ended up getting nothing new from this book. All of the games also require props, the likes of which you likely won't own unless you've been training and playing training games with your dog(s) for a long time. In all honesty, if you just go on YouTube and search for prop games, training games, and balance training for your dog, you're likely to find a lot of the same stuff.

This is a GREAT book! The games are so much fun - Zima's by far favorites are Weenie Bobbing & the Muffin Tin game. I teach a local trick dog class and we use the Muffin tin game as an intro to all tricks working with scent. I really like the set up of this book too. It breaks the tricks into categories like confidence building, coordination, etc. That has come in handy when I try to teach my dog and the dogs in my trick class a good variety of tricks. Zima has earned her Champion Trick Dog title and it is because of THIS specific book! We started with 51 Puppy Tricks (also by Kyra), but when I was struggling to find a coordination trick a 6 month old puppy could do I got this book last Christmas. I taught the Double Beam trick and that was our last step in becoming a champion! Thanks Kyra for your GREAT trick books! After one year of owning a dog I now own all 4 of your trick books (101 Dog Tricks, 51 Puppy Tricks, 101 More Dog Tricks, and this one, 10 Minute Dog Training Games)

Some fun stuff, but too many of these games/tricks require some sort of special equipment. However, if you can make or buy the equipment, and then have a space for storing them, you'll find this genuinely fun.

One needs a lot of equipment that nobody usually has at home in order to interact with a dog in the ways described in this book

I loved 101 dog tricks and bought this book for quicker activities to do with my dogs. This book

stands on its own and does not cross over with the other book which gives you great value. What I like
The activities vary in difficulty level and definitely make it easy to find something for your dog. the
book is broken down into different types of training or activities eg bonding, tricks, obedience
Good index
Has games that build on from each other
While some games require props, most of the time you can use substitutes
My only problem is that the formatting for use on the Kindle iPad app is not great. However it is still readable and does include links which make it easy to navigate.

Fun book with great ideas for further training if you've already worked through one of her other books!

If you have a bunch of money to buy all the different things you would need for these games and lots of room. I'm sure it would be ok. I live in an apartment with no yard. It was a waste of money for me.

I found some good basic lessons that were a review for me, but reminded me of long forgotten bonding exercises to try with my puppy and some new tricks that were good brain stimulating lessons. Great assortment of games that were explained and illustrated well. There are quite a few props needed for some of the games which I will need to obtain.
