Rick Steves Snapshot Basque Country: Spain & France

Synopsis

You can count on Rick Steves to tell you what you really need to know when traveling in the Basque Country. In this compact guide, Rick Steves covers the essentials of the Basque Country with coverage of St. Jean-de-Luz, The Bay of Biscay, and Bayonne. Visit the Eglise St. Jean Baptiste, the Plaza de la Constituci3n, and experience both the French and Spanish aspects of the region. You'll get Rick's firsthand advice on the best sights, eating, sleeping, and nightlife, and the maps and self-guided tours will ensure you make the most of your experience. More than just reviews and directions, a Rick Steves Snapshot guidebook is a tour guide in your pocket. Rick Steves' Snapshot guides consist of excerpted chapters from Rick Steves' European country guidebooks. Snapshot guides are a great choice for travelers visiting a specific city or region, rather than multiple European destinations. These slim guides offer all of Rick's up-to-date advice on what sights are worth your time and money. They include good-value hotel and restaurant recommendations, with no introductory information (such as overall trip planning, when to go, and travel practicalities).

Customer Reviews

Since 1973, Rick Steves has spent about four months a year exploring Europe. His mission: to empower Americans to have European trips that are fun, affordable, and culturally broadening. Rick produces a best-selling guidebook series, a public television series, and a public radio show, and organizes small-group tours that take over 20,000 travelers to Europe annually. He does all of this with the help of a hardworking, well-traveled staff of 100 at Rick Steves' Europe in Edmonds, Washington, near Seattle. When not on the road, Rick is active in his church and with advocacy

groups focused on economic justice, drug policy reform, and ending hunger. To recharge, Rick plays piano, relaxes at his family cabin in the Cascade Mountains, and spends time with his partner Trish, son Andy, and daughter Jackie. I use to love rick steves but this trip i felt like every recommended tapas bar was filled with american tourists, it really took away from experiencing the local life. I ended up skipping the recommendations and heading to places filled with locals. Still love the books to use as guides for touring museums etc and tricks in saving time.

Stevens in this little book is concentrating on the most touristed coastal areas on Basque (northern Spain). Not much on the more mountainess smaller villages.

I've used Moleskine journals for several trips. One thing I've always disliked about them is that there are sections for things like "meals" or "hotels". I've always cut those section names out before taking a trip because I don't use those sections nor do I like to be treated like a child and told what to write where. The Rick Steves pocket travel journals do not have that nonsense. Other than that the books are very similar.

Wonderful suggestions. We used it for tours and restaurants. Awesome.

Rick Steve's books are always top rate!

Limited book. While it covered much of the Basque experience, it did not cover other surrounding towns like Oviedo. That part of Spain was quite charming, bit not touched by the book.

Great book

I realize this is a 'pocket' journal, but it was disappointingly small. I was hoping for something that would more of a keepsake after our trip. And, I would have rather purchased something a little larger with more pockets.
