Hunting Angel (Divisa Book 2)

Synopsis

Chase Winters was the bane of my existence. But he was also the lifeline of my heart and soul. Literally. Things are steaming up between us, and between the sheets. When his lips weren't locked with mine, they were spewing verbal crap. Half the time I don't know whether to kiss him or slap him. Our bond was more than just being connected, we are soulbound. The closer we get, the stronger the bond takes hold and now-a-days it seemed we are inseparable. There was a new addition to our little town, one that has all the Divisa's on guard â “ a hunter has taken up residency. This hunter was not just another threat, not when their identity hit a little close to home. Strife divides my neighbor's household surrounding this supposed enemy. Could they be friend or foe? Chase's number one priority in all this as always, was to keep me safe. Regardless of what Chase says, I am not the weak and fragile human they all think I am. And there was nothing I wouldn't do to keep Chase from harm. He might drive me up a freaking wall, but he was my pain in the ass. I wasn't about to sit back and let some hunter fire an arrow through his heart. Not if I could help it. Then there was the one question that was on everyone's mind: Will the hunter kill us or save us? **Recommended for 16+ due to language and sexual content**

Chase and Angel continue to have a love/hate relationship. But he saves her life more often than not. She is friends with his cousins, and a totally gamer with Travis. But will her luck continue or will she be at the wrong place at the wrong time. Luck runs out and Angel dies. But when death comes to claim her, Chase makes a deal to save her again. This ties them together, as soulmates. She receives the same tattoo he has, making her a part of him. Meanwhile, Travis used to have a girlfriend before she disappeared. Emma was his one true love. But that was a year ago and although he has never given up hope, she was never found. That is.....until a hunter almost killed Angel and guess who has returned?? But she's no longer a friend, but a major enemy. Things get out of hand. But what will happen now?? Will Emma get the best of one of them?? Is Angel going to die anyway?? What happens to Chase?? Can any answers be found?? Of course.....But you have to read the book. This rates as pretty darned high for me. Love the story and the characters. Read on my friends...

This was an awesome sequel from the first book! I couldn't put the book down!! I loved reading more about Chase and Angel and their love hate relationship. Chase Winters is mouth watering HOT! Angel is spunky and doesn't back down from anything. Their hot and cold relationship is addictive and entertaining. It was intriguing to see how these two tried to stay away from each other, and failed in an explosion of hotness! Chase locates an expert demon/ human romance named Ives. He informs them there are three phases to the closest connection which are soul, heart, and body. They're already soul connected from the first book, so that just leaves the other two. However, instead of this news bringing them closer, it seems to build a wall between them. Then the unthinkable happens. A hunter comes into town whose identity will shock the entire Winters family. The most shocking hunter is Emma, a blast from Travis' past. Emma is definately not my favorite person in the beginning, but as the story unfolds, your heart starts to warm up to her and feel a little bad for her. The hunters become the main focus of this book especially when they kidnap Angel. Chase goes crazy trying to find Angel and will kill anything that gets in his way. The installment packs an emotional whirlwind for more than one character and it is nice to see Chase and Angel move onto the next level in their relationship....Check out more on my blog:

Saving Angel is the first book in a 5 book series, 7 books total with the novella side stories as well. Angel Morgan, girl geekiness who loves and choose her free time to play Xbox games. Her and

her mom moves from Arizona to a whole in the wall town of Spring Valley, Illinois. Things get interesting when she meets their neighbors, three teenagers about her age, neighbors that will bring an underworld of trouble. Chase Winters and his cousins Lexi and Travis are Divisa-half demon, half human with supernatural powers and glowing eyes. If you have read J. Armentrout's Lux series, then you will have already an idea of how this series goes. You just basically replace aliens to half demons. I felt like I was reading the same story. I am not saying that to hurt the author but this could of had so much potential. I loved the geekiness and hot banter between the characters and was very humorous at times. I am still going to read the rest of the series to find out the outcome of the ending.

Yes this book went in a totally different direction and finally moved away from its Lux similarities. I love the relation ship between Chase and Angel even though i still want to slap him most of the time. Its cute. I think Angel commented on how hot chase was a little too much for my liking but i can move on from this :)

3.5 stars. My personal weakness (I mean beside chocolate) : the supernatural part of the loooove going on (I don't mean the demon thingy, I'm talking about what saved Angel by the end of the first book). I lived the banter. It just is so much fun to imagine someone's head when you say stuff like thatÃ¢Â| Totally. Their relationship is getting hotter in this book. Unfortunately, I'll have to highlight a few things I personally disliked : 1. Angel has a mother. I'm not a 100% sure because she is hardly a part of the story (aside from her couple and her cooking). And really ? What kind of parent is that dumb ? 2. Lexi is Angel's best friend. So Angel says. Curious, because I am pretty sure Lexi went from being a regular member of the cast to a mere recurring. Too bad, she was kick ass ! 3. Emma. Her character is uninteresting. Her banter is similar to Angel's. And the mood swingsÃ¢Â| She has issues. The thing is : what issues ? Cause I sure as hell don't want to pay 5Ã¢Â to discover it by reading a novella. At least, in Jennifer Estep's Mythos Academy, you don't feel cheated by not buying novellas. I still liked it. I read it in a day. *hooked !*

Can I say awesome sequel? "Hunting Angel" was absolutely fabulous and didn't disappoint me in the least! I loved loved loved reading more about Chase and Angel. Their hot and cold relationship is addictive and freaking entertaining as heck. Yes, I love it when it's hot, but I enjoy the cold just as much. I seriously cannot get enough of this series and I'm psyched to read the third installment, "Chasing Angel," next!

Although these books are copies of the Lux series, I was willing to continue reading after reading the first book. But I became fed up with the childishness that is Angel, and the return of Emma was the last straw for me. My advice is to please read the Lux series by Jennifer L. Armentrout. They are well worth your time and the money. The novels are better written and leaves you on the edge of your seat breathless. This author should really be ashamed of herself for copying every inch of those books. Well, she did change the names of the characters and made them half-demons instead of aliens.
