Very good

Good background music for young children who will learn the old song through osmosis

Keeps the little ones entertained and familiar with the animal sounds!

I asked my mom what music to get for a friend's kid. My mom said all four of her kids loved these, and 30 years later my friend's kids are obsessed with them. My friend's only request was that i buy more of these CDs so she and her husband didn't have to listen to the same one all day every day

This went well with our kindergarten homeschool using My Father's World, because so many of the animals are featured (and we just added more!). Singable for kids, and several songs were requested during playtime as well.

Love this CD and book with all of the songs printed in a clear font and size is perfect for reading! This CD is perfect for playing anytime with a wide range of ages! Clear and perfectly designed so you can hear the words and sing along! Excellent quality!

This is a fun, sweet collection of children's songs that my one year old son absolutely loves. A must for music lovers.

Excellent. We love Wee Sing.
