Headquartered in Berkeley, California, Rockridge Press is situated in the heart of one of the healthiest regions in the world, the San Francisco Bay Area.

Oh my goodness this is a dangerously delicious, fast and easy recipe book! These recipes are out of this world. Very easy and I stress easy to make. Bought this to make with my 8 year old and we have had fun trying new recipes. I enjoyed making these fun mug cakes so much I have purchased 3 more for friends as gifts. I would highly recommend this book for anyone who wants 1 or 2 mug cakes in a jiffy. What is really nice about these recipes is that you don't have an entire cake tempting you! ;) A single portion is perfect for us!

I was so excited to review The Absolute Best Mug Cake Cookbook. I am absolutely a cake lover and to be able to have a quick cake in a single size portion sounded like heaven to me! I love that there are so many recipes and ideas for just about every situation, like holidays, gift, adult beverages and so many more. It even goes into making gifts out of the cups. The only thing I wasn't a huge fan of was the very long introduction of tips and instructions. This is probably because I wanted to dive right into making some yummy mug cakes! I received this book in exchange for my honest review

One of the best "cookbooks" out there!. The author clearly cared about the craft. My boys love pouring over the recipes to see if we have the ingredients. If we don't, they see what they can add instead. The Absolute Best Mug Cakes Cookbook is the perfect title. The directions are very easy to understand. The ingredients for the most part are either in your pantry now or easily gotten At the local grocery store. I am so glad for this cookbook! With the clearly written how's and why's I can whip up a yummy treat without a whole lot of mess. Especially if I don't want to share!!! I received this book in exchange for an honest review. I really did try out some of the different mug cakes to form my opinion. This will remain on my Kindle.

I was so excited about this book. I had no idea there were so many recipes that you could make in a mug! I have 4 boys and can now make a different recipe to match their moods. I am finding these mug cakes to be such a great after school snack option. I love that there are also options to make mug cakes for different dietary restrictions, like my youngest is lactose intolerant. If you want sugar free, gluten free, dairy free, nut free, vegan, or low carb there are substitution guidelines for each. The boys love all the cakes that they have tried so far!\*I received this ebook for free, however all opinions are 100% my own.

This cookbook book showed up on my daily BookBub email for a couple of dollars (Kindle version),

so I thought, what the heck? I'll get it. I am not sorry I did, except for all the extra calories I am now consuming. Not only does it have plenty of recipes for all kinds of cakes, it has other great information too. Perfect for making cakes with a child, as the recipes don't involve a lot of ingredients or use of a mixer. Perfect for seniors, too. Each recipe makes two mug cakes and uses ingredients even an occasional cook/baker would have on hand. It's the perfect way to satisfy a craving for cake without having to go to the trouble of making a whole one. This cookbook would make a great gift.

Great recipes. I had bought one as a gift and gave it along w/ 2 mugs. Made a nice gift. But I really liked the book--and ordered a 2nd one for myself :)

Living alone, I was looking for recipes for meals. Although, I was in a hurry and saw 100 recipes and ordered this. One of the best features of this book is the troubleshooting sections that tell you why the mug overflowed, why it turned out dry, etc. I also liked the substitution section especially when it came to artificial sugars being defined. There are so many recipes, it will be fun to try a new one every day if you like cake. I like the mug books as they are just right for one or two people.

This book is awesome. My 10 year old and 3 year old made the Devil's Food Mug cake last night (with my help). It was so much fun and absolutely delicious. There's are tons of sweet and savory recipes in there. Most ingredients can be found in your pantry. There's aren't any expensive ingredients that are called for either. It's a great addition to my cookbook collection.
