I am a serious shopaholic! I absolutely love it and whether im shopping for groceries or whatever i somehow find myself in the fitting rooms trying on a dress i saw five mins ago. Tbh i didnt really see it as a problem until i came across this book which really made me think.I learned how to identify the triggers which cause my 'addiction' and how to go about curbing my impulses whilst out shopping. Would have liked to to have had some actionable steps buy nonetheless it is definately worth a read if you are a shopaholic like me.

I really needed this book, I have to admit that I am a shooing addict, always thinking to go out and just buy stuff, most of them don't really need. At some point I realized that I needed to do something with this and happily came across this book. The thing that for me was an eye-opener is to realize the cause of my behavior and that I can change myself, this known alone made me somewhat a different person.This knowledge is very important if you know that your shopping habits are becoming too compulsive. Great BOOK !

Addiction can show up in many ways, and I didnÃƒÂ¢Ã ¬Ã „ct realize that my shopping was displaying addiction signs! I thought my shopping was just an innocent pastime, even though it often caused me to spend more money than I wanted to, and after reading this novel I realized my shopping is more of an addiction than just some simple shopping! Thankfully I know now what the signs are of my shopping addiction, and how to be able to economically shop for the items I need rather than just buy things for the sake of shopping. This is a must read for anyone who shops more than needed!

Shopping addiction is often viewed as something that only women experience. I am very glad that this book took the stance that it can affect anyone. I have struggled with this for some time. The Shopping Addiction Remedy is going to be a big help for me. The first couple of chapters how you decide if you have a shopping addiction. For me, the best parts of the book were the ways of controlling your shopping triggers. There are several techniques that I think will be a big help for me.
