AWSOME

Good supplemental. Provides additional equipment for your character. Has additional templates that can be used. Definitely, recommend for avid players

Must have for the MW II playah! ;-)

Do you ever start sentences like this when playing Mechwarrior?: But what about....? If so, you need this book. It is great because it finishes up what the original mechwarrior left out. There is new equipment as well as rules for people who wish to role-play clan characters. You must get this book if you have mechwarrior 2nd edition!!

An absolute must-buy, if only for the generous compilation of tables and charts in the back. I can't imagine the MechWarrior RPG without it.
