The Pok mon Black Version 2 and Pok mon White Version 2 Volume 2 The Official National Pok dex & Guide will contain over 600+ pages and is the complete guide to catching over 640 Pok mon. Learn complete moves and attacks, secrets to improving battle strategies and more! This is the ultimate tool that no Trainer should be without. 

I needed a National Dex, so I bought this. Along with the new Dex for Kalos, all the Pokes are covered. This one is a big book, larger than the new Kalos one and it has tons of stuff besides the Dex. Great reference addition to my library. I wish they would come out with a new and current Dex....something big and nice, hard bound....that's just a Dex and reference stuff (item table, berry chart, moves, egg moves, breeding, etc) but complete with all Pokes.

It is such a complete Pokedex. It has everything you need to know about Pokes, including where to

find, abilities, tips for training and maximizing stats, etc. It is very well organized. The only downside is that it has some informations already included in Poke White/Black 2 Guide Vol. 1. But I think it is like an extra, not a waste of space, even because the book is huge with hundreds of pages. Very recommended, whether you want just complete the game, complete it with 100%, or battle competitively online and so.

This is honestly everything you would ever want and need from a Pokedex. It has all the newest pokemon, up to and including Keldeo, Moeletta, and Genesect. It's large, and somewhat heavy. The book should last you till the National Pokedex for X/Y is out. Though this is no less useful for those just starting their adventure on Black(1&2)/White(1&2)!

This book is of excellent quality and is quite heavy - over 5 lbs I'm sure. My child takes this book everywhere and it has now (after quite a number of months) lost its back cover and maybe its front cover. It has lived in his bookbag and endured plenty, so I cannot possibly blame this on a product quality issue.

My son has worn this book out. He used to carry it everywhere!

My son looked all over for this book and was very happy when finding in on , he was also very happy with all of the information in it.

Exactly as I expected thanks guys.

This was a gift for my nephew's birthday. We had already bought the game and wanted the guide and Pokedex to go along with it. Books came in perfect condition and quickly enough that I was able to give on time for his party! Very happy.
