Customer Reviews

Not only does this book have piano but guitar as well. You can see the rhythm and lyrics and the guitar chords. This is one of my favorites so if you're an Elton John fan and you like these songs then this book is definitely the one for you.

Our daughter requested this for Christmas and loves it. She has commented on the simple genius of Elton John as she has mastered the songs in the book.

great

I lie Elton John and I like the book. Music books are my favorites. I like them better then any types of books. I will recommend it to the people and I will give five stars.

Good

Some song will float in your head for many minutes after it is done. When you hear the first several bars of music - at first you may not know the name of the song (or who sang it), but some where from deep inside of you the words come to your mouth and you sing along with the radio. Elton John has written some of those songs you will find yourself doing just that.
